Michael Knutson
V.P. Infrastructure
MEADE ELECTRIC
9550 West 55th Street
Suite A
McCook, IL 60525

Dear Michael,

On behalf of IPL, I'd like to express my appreciation for the response and relief efforts your organization contributed as our company undertook restoration of outages following severe storms that struck Indianapolis May 30 – June 4.

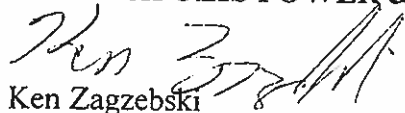

Meade Electric crews play an integral part of our daily work at IPL and are critical during our restoration efforts. We have enjoyed a long-standing relationship with your company and value the response of your skilled and professional line crews.

I'd especially like to commend the efforts of your company's crews as they contributed to working safely for an injury-free restoration. All the people working during this event faced significant difficulties as they restored power to IPL's customers affected by these storms.

It is necessary to receive your support during an event of this magnitude. Thank you again, and we look forward to working with you in the future.

Sincerely,

INDIANAPOLIS POWER & LIGHT COMPANY

Ken Zagzebski
Senior Vice President Customer Operations
