Meade Engineering Expertise

Meade has a large, full time staff of degreed engineers to help you design and build your projects. Our professional engineers are registered in many states including Florida, Illinois, Indiana, Kentucky, West Virginia, Wisconsin and New York. Meade is a registered design firm in the state of Illinois. Meade is also a licensed alarm contractor (Security and Fire).

Our Engineering Capabilities:

- High voltage power distribution system design (4,160V through 345,000V)
- Electrical power generation and cogeneration systems
- Lighting and general purpose power distribution (277/480V through 12KV) design for commercial, industrial & institutional facilities
- Intelligent Transportation Systems (ITS), traffic signalization and street lighting systems
- Electrical code interpretations
- Process control systems and system integration
- Supervisory Control and Data Acquisition (SCADA) systems
- Overseeing sub-consultants
- Reviewing design documentation
- Professional engineering & certification
- Technical help on unusual challenges
- Smart Grid
- 3D CAD Drawing
- Building Information Management Systems (BIMS)
