Railroad Signal Control Systems And Infrastructure

Our Railroad Infrastructure Expertise

Meade has the capability and capacity to build/maintain your rail signal, communications and electrical systems.

Our Railroad Capabilities:

- Train control
 - Interlocking
 - Wayside Signals
 - Grade Crossing Warning Devices
 - Defect Detectors
- Signal Design
- Case Wiring
- Overhead Catenary Systems
- Substations
- Power Transmission Lines
- Conduit Systems
 - Duct Banks
 - Fiber Optic
- Yard Lighting
- Yard Automation
- Car Identification Systems
- Locomotive Fueling Facilities
- Underground Piping
- Project & Construction Management
- Design Build
- Electrical Design
- Communication Design
- Public Address Systems
- CCTV and Radio
- Facility Maintenance
- Special Signal, Communication and Electrical Work Applications for Industrial Rail Needs
- Horizontal Directional Drilling and Trenchless Technologies
